SERAPHIC PLANETARY WASHES

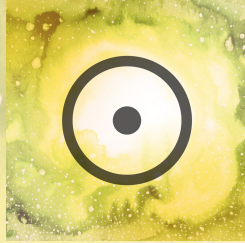

Embodying Positive Planetary Energy into our Human Experience

Seraphic Planetary Washes are gifted from the Seraphim - an angelic order of the highest, purest power. This ancient astro-technology channels vibrational energy from the planets in our solar system and is part of the Seraphim Blueprint, founded by Ruth Rendely, who channeled this wisdom from the Seraphim in 1994.

In this unique modality, Seraphic Technology draws on a planet's positive attributes and highest vibrations, and bestows these qualities with divine intelligence. The energies work on physical, emotional, mental and spiritual levels, intuitively adapting to each individual's needs. Through the embodiment of celestial energy, we can use a Planetary Wash to uplift our earthly existence - from experiencing astrological transits in a beneficial way and alleviating the outcome of challenging aspects, to healing and nurturing wellbeing, and supporting our spiritual growth.

PLANETARY WASH THERAPIES

As an attuned practitioner of the “Seraphic Tour of the Solar System - Planetary Washes”, Jamilah draws on her holistic knowledge and intuitive gifts to offer 3 unique therapies.

Personal Astro-Chart Wash

For use after a Natal Chart or Astrology Reading

When a client receives a professional astrology reading, the astrologer can pinpoint the weak planet(s) in their natal chart – either at the time of birth or when transiting planets might affect the client in a challenging way. A list of planets that would benefit from the supportive energy of Planetary Washes can then be given to the client for a Seraphic Practitioner to work on. Whilst Planetary Washes cannot fully offset or completely cure the ill aspects of a person’s astrological chart, they do offer tremendous support by boosting positive energy to help alleviate a challenging outcome.

This unique and profound healing therapy is offered in exclusive partnership with renowned Astrologer Kesenya Moore.

Holistic Astro Boost

For use as an Energy Healing Modality

Planetary Washes can be used as an astrological medicine. By harnessing the positive attributes of a specific planet or planets, we can experience improvement in certain areas of our lives. As the intelligent energies assist with physical, mental, emotional and spiritual issues, they enhance our overall wellbeing and spiritual development.

Planetary Aspect Soother

For use as a Supportive Tool During Planetary Events

During a dynamic or challenging astrological configuration, such as when a planet is retrograde or in hard aspect, Planetary Washes can smooth and ease the celestial effects. Whilst they do not act as a magic wand to make all challenging aspects disappear, they help to tone down the unpleasant results and support the person during a particular transit.

Planetary Wash Sessions

- Each Planetary Wash takes approximately 9 minutes.
- Suggested length of time for each session is 20 minutes, including brief explanation, centering, 1 Planetary Wash (9 minutes) and Q&A. (Longer if more than 1 Planetary Wash is included.)
- Sessions can be conducted in person, over the phone or via video call.

Timescale of Effects

- The practitioner intuitively determines the optimum intensity that each client should receive during a session.
- The energy of a Planetary Wash is guided by the divine intelligence of the universe.
- The effects of each Planetary Wash vary in intensity, from 0.5 – 14 levels. The higher the level, the more long-lasting the effects.
- It is highly recommended to repeat a Planetary Wash to maintain holistic wellbeing.
